'Starry Night'

Overview:

At night time it is dark. Most people sleep at night time.

It is important to get a good night's sleep every night.

Some people work at night, like members of the emergency services.

Some animals sleep in the day and are awake at night. They are known as nocturnal animals.

Bats, owls, foxes and badgers are nocturnal animals.

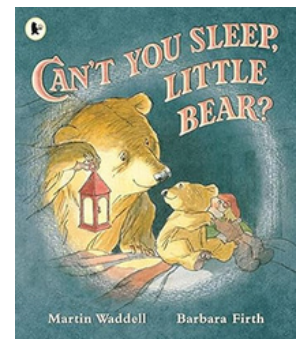

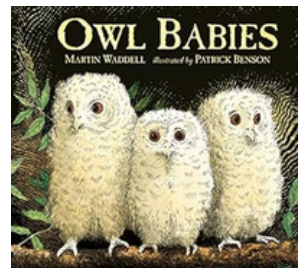

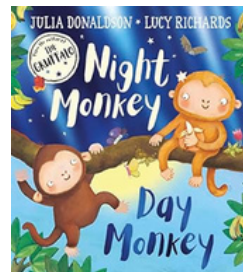

We live on a planet called Earth. It gets dark at night because our part of Earth is facing away from the Sun.

Trips and visitors

- A visit from the Hedgehog Hospital (providing the hedgehogs are well enough!)
- An online Space STEM workshop
- A night walk in the school grounds

Key texts

Key vocabulary

nocturnal, badger, bat, fox, owl, daytime, night time, dark, light, sun, moon, sleep, star, planet, emergency services

'Winter Wonderland'

Overview:

There are four seasons. They are spring, summer, autumn and winter. Winter is one of the seasons.

In winter, the days are short and the nights are long.

The weather can be very cold in winter and water in puddles and ponds can freeze into ice.

Lots of trees have no leaves in winter and not many plants can grow.

Some places are cold and snowy all year round like the Arctic and the Antarctic.

Trips and visitors

- Wintery walks on cold mornings
- Exploring ice, melting and freezing as part of outdoor learning

Key texts

Key vocabulary

day, night, season, winter, cold, ice icicle, snow, freeze, frost, Arctic, Antarctic
