

Our Vision is to develop young people with compassion for others, healthy enquiring minds and confidence in their own worth.

Our Bible Verse: **'I pray that you will be rooted and established in love.'** Ephesians 3, verse 17.

Our School Motto: **Be kind, be curious, be you!**

Be kind (Compassion for others)

Understanding the love that God has for them and experiencing love and kindness from the school community, children will build a secure foundation on which they can flourish.

Experiencing unconditional love will enable children to develop and maintain their self-worth, which will then empower them to show kindness to those around them, both close to home and in the wider world.

Be curious (Healthy enquiring minds)

Children will be curious to explore their learning, friendships, wider relationships and the world around them without being held back by fear or self-doubt.

Children will be curious in their exploration of their own potential and the contribution that they can bring to our school and to the wider world.

Be you! (Confidence in their own worth)

Children will be celebrated for who they are and be supported to reach their educational and personal potential.

Children will grow to understand that their worth is intrinsic and not dependent on meeting targets or being the same as their friends.

Children will be released from the burden of conformity and therefore be able to resist the pressures on their mental health that arise from external influences such as the media and online platforms.

Children will be encouraged and enabled to share their unique contribution with our wider community.
