

Murphy Class Knowledge organiser

'Big Wide World'

Overview:

- We live on a planet called Earth. A 3-D model of Earth is called a globe.
- The land on Earth is surrounded by seas and oceans. Maps show a 2-D image of land, seas and oceans.
- We can travel between places on Earth by using vehicles, such as cars, buses, trains, boats and aeroplanes.
- On Earth, the climate and weather changes depending on location. Some places are very cold, some are very hot and some are wet or dry.
- A habitat is the place where an animal or plant lives. Every habitat has a different group of animals or plants that live there. Habitats include oceans, mountains, forests, savannahs, woodlands, rivers and deserts.

Trips and visitors

- 'Ride on Time' road safety workshop
- Visits from people in our local community about life in other countries.
